WEATHERPROOFING ADVISORS LIMITED

Weatherproofing Advisors were chosen to refurbish the old existing delaminated staircase.

This metal staircase is located in a semi external courtyard, therefore constantly subjected to the elements. Treads, risers, landings and all other components of the staircase had been previously treated with an unknown coating system which was failing dramatically.

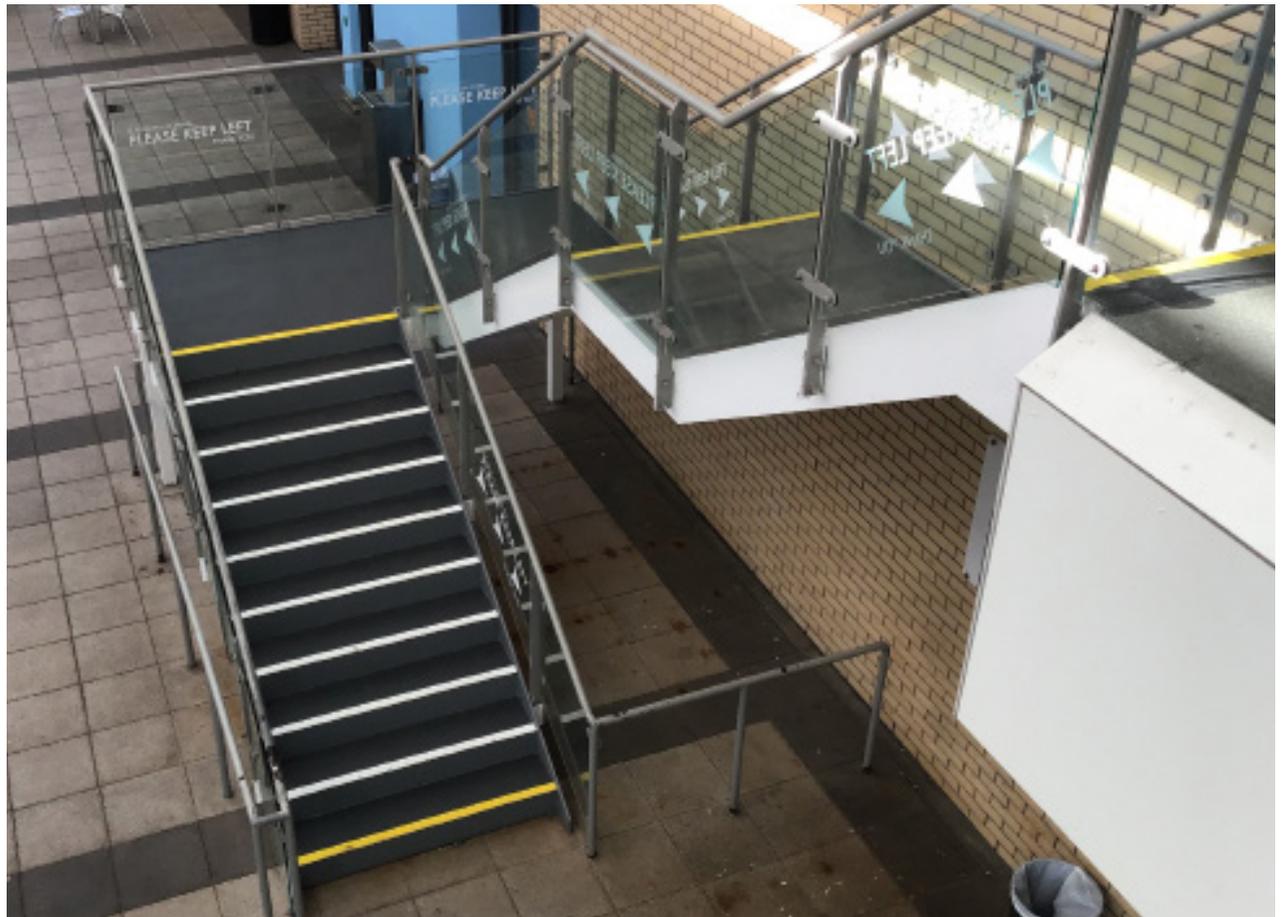

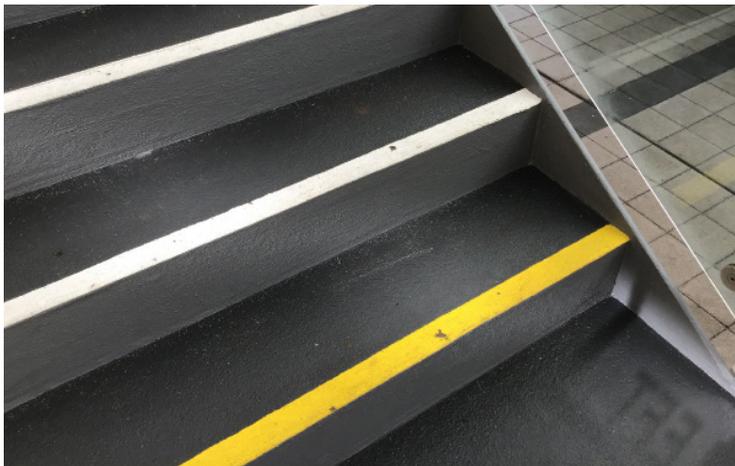

There were signs of corrosion which appeared throughout, extending to the underside of the staircase itself. Splits and cracks to the trafficked areas meant water was getting beneath the existing system, causing blisters and adding further to the issues. Another major concern was the lack of anti-slip surface area present.

The works were carried out during the School closure in February where no access / egress was required and therefore controlling the safety on site.

The preparatory works required for the project entailed the full removal of all the existing coatings, from stair treads to upper landing areas, risers and upstands, all back to bare metal. This was carried out by both manual and mechanical means.

After the extensive prepping, priming and surface filling had been completed, the next stage was to waterproof the project.

The Triflex TSS (R) Stair Coat Reinforced System, was then installed to the staircase. The new waterproofing solution, which is designed for high intensity environments, provides a fully bonded, seamless, vapour permeable, long lasting system.

Setting new standards for the roofing industry.

Established over four decades, Weatherproofing Advisors continue to raise the bar with respect to their technical and service capabilities.

Specialising in the maintenance and refurbishment of roofing and cladding, Weatherproofing Advisors have built their enviable reputation around their passion for providing their customers with unparalleled levels of service.

Service the WPA way

Our culture of continual improvement and going the extra mile for our customers and colleagues alike has enabled us to develop a true and lasting partnership with many of our clients.

Our customers say we bring real value to their business – over 93% of our customers said we had provided excellent levels of service in relation to quality of works, health and safety, communications and customer care.

All sectors covered from service centres across the UK

Weatherproofing Advisors Ltd offer both a regional and national capability through their service centres across the UK. We have experience of working in all market sectors and fully appreciate the different demands associated with each.

Good service does not happen by accident.
