

## Environmental Policy

### ISO 14001:2015

Weatherproofing Advisors Limited recognise, that its activities within the construction industry, namely, the supply and installation of flat roofing, profiled wall and roof cladding systems, built up felt systems and liquid applied coatings have an impact on the environment. This impact may be in the immediate vicinity of each site or more widely through the consumption of raw materials and energy, and emissions to air land and water.

To minimise this impact to as low as reasonably achievable, Weatherproofing Advisors Ltd recognise that environmental protection and prevention of pollution is integral to business operations.

Weatherproofing Advisors Ltd Senior Management is therefore committed to ensure that protection of the environment is firmly embedded in the company's culture and will endeavour to influence its suppliers, subcontractors and customers in a similar strategic environmental manner. We will adhere to the following:

- 1 Developing, implementing and maintaining an effective Environmental Management System Certified to ISO 14001:2015 to ensure continual improvement in Weatherproofing Advisors Ltd environmental performance and providing adequate performance and providing adequate resources to accommodate this.
- 2 Monitoring environmental legislation, regulations and codes of practice that are relevant to the company's operations and endeavouring to take reasonable actions to ensure compliance.
- 3 Developing environmental awareness and assigning individual responsibility for environmental management amongst employees at all levels in the company.
- 4 Striving to conduct its activities in a manner designed to eliminate or minimise releases to air, land and water and thereby monitoring these activities through effectiveness records on a monthly basis.
- 5 Utilise, where viable, materials and products from sustainable sources, and adopting waste minimisation techniques and good housekeeping practices to ensure the most efficient use of non sustainable resources.
- 6 Ensure that all environmental aspects are considered for new or existing contracts, methods, processes or equipment, in order to minimise adverse environmental impacts.
- 7 Seeking methods of improving the environmental performance of Weatherproofing Advisors Ltd key suppliers and contractors.
- 8 Communicating openly and honestly with employees, customers, neighbours, regulator and any other interested party with regard to environmental protection.
- 9 Review of targets and objectives will be continually reviewed
