

WEATHERPROOFING ADVISORS LIMITED

Lennon Studios

www.weatherproofing.co.uk

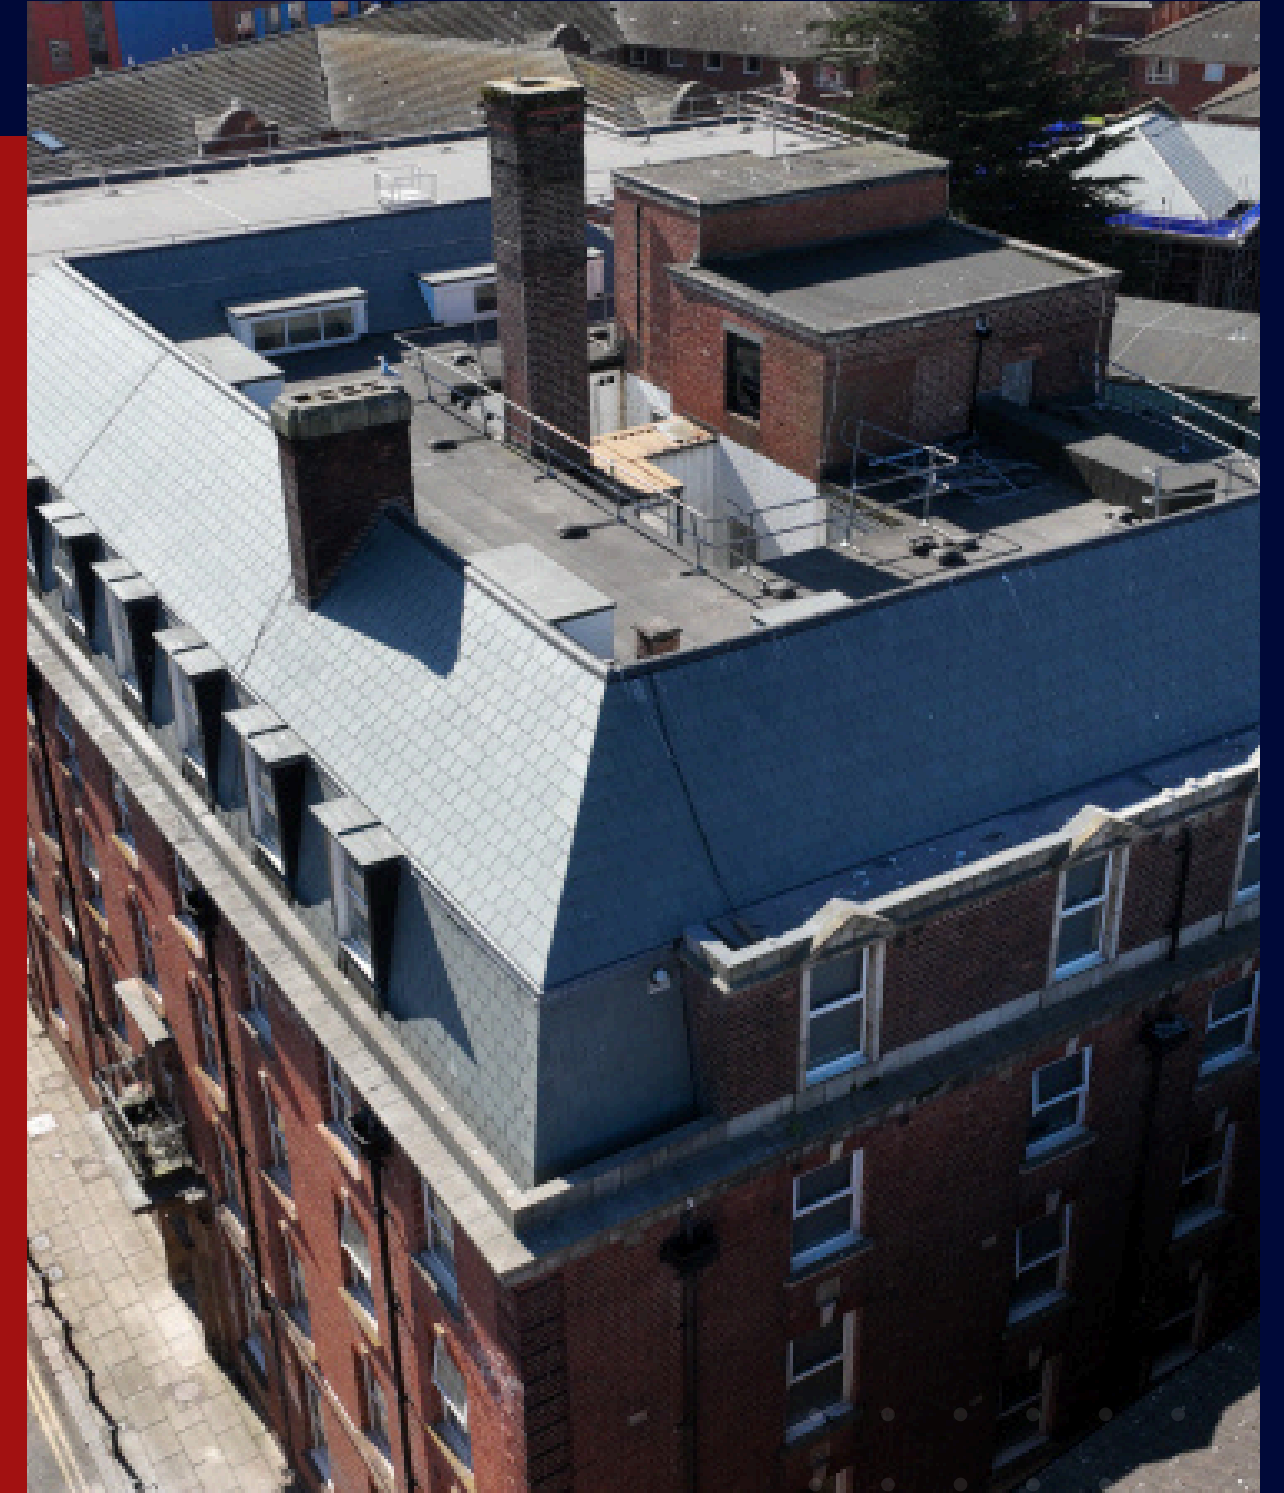

Weatherproofing Advisors were successfully appointed to replace the slate roof at the historic Lennon Studios building situated in the heart of Liverpool

Weatherproofing Advisors were approached to carry out a detailed condition report at the historic Lennon Studios. During our assessment, we identified multiple areas of water ingress that were compromising the integrity of the building. Our team developed a comprehensive solution to address these issues, focusing on restoring the roof and protecting the structure from further damage. The During section showcases the careful work undertaken to bring this iconic building's roof back to its former glory.

SPOTLIGHT ON SERVICE

As part of the restoration works, we replaced the existing end-of-life slate roof with a new, high-quality slate covering. The original roof had deteriorated significantly over time, compromising the building's protection. The new installation not only enhances the building's appearance but also ensures long-term durability and weather resistance, in keeping with the character of this historic structure.
